Dear Sir/Madam,

I am Satya Sameera Devu, currently a Graduate student in California State University, Sacramento would like to apply for this position. I would prove my credentials with remarkable communication skills and result oriented focus in solving critical problems.

As stated in my enclosed resume, I have proficiency in Data Analytics tools, Java, SQL, HTML, CSS, PHP, C,C++. I enforce different object-oriented aspects and design patterns efficiently in my programming styles.

I took up Under graduation at Andhra University to pursue Bachelor of Technology in Computer Science and System Engineering. I have soon struck chord with the syllabus and structured my understanding about computers.

I was a Class Representative in my Under graduation in Andhra University for four years and have organized many department events like Workshops, Seminars, Fests. Apart from department events I was an active member and volunteer in Swachh Bharat Abhiyan, which is a campaign in India that aims to clean up streets, Roads and infrastructure of India's cities, smaller towns, and rural areas.

I strongly believe that my passion for programming, attention to details and good organizing skills will be a great fit to the position offered. Thank you for your time and consideration.

Sincerely,
Satya Sameera Devu
